

THE hi-fi SHOW

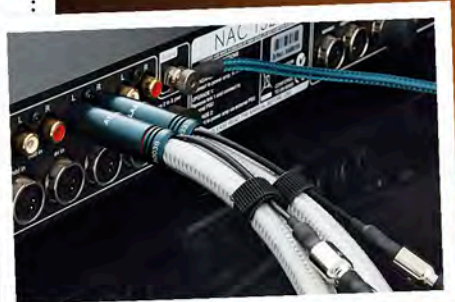

Live 2017

Now in its fifth year, and with more new exhibits, the UK's only high-end audio show gathers pace as the 'who's who' of world-class hi-fi plan their debuts

Esoteric is teaming up with Nordost cables at The Hi-Fi Show Live to debut more of its flagship 'X' series separates, including the K-01X – a more compact version of the Grandioso SACD/CD player.

Not only will Atlas Cables have a working build station at The Hi-Fi Show Live, but it will also be demonstrating its 'Grun Coherent Earthing System' with range-topping Asimi and Mavros analogue interconnects.

Ever wondered what the ultimate digital disc/DAC/network audio player looks and sounds like? Well dCS believes it has the answer and will be tempting visitors to The Hi-Fi Show Live with its limited edition Vivaldi One player, complete with latest (v2.0) Ring DAC.

Instantly recognisable as KEF's EISA Award-winning LS50 standmounts... but no, these are the LS50Ws – a fully active 'music system' with wireless, USB, S/PDIF and analogue line inputs. On demo at The Hi-Fi Show Live, their custom DSP and two mono amps per speaker push the LS50 well beyond its 'passive' performance.

Seminar specials

The master of vintage hi-fi, Tim Jarman, returns to The Hi-Fi Show Live, with a series of demonstrations showcasing iconic kit from yesteryear. Come see and hear some of the most memorable components from *Hi-Fi News'* Vintage Review series, learn what to look for when buying historic kit and get tips on servicing and repair.
